## US CANADIAN CLEAR WATEK LLC (CC - 1000 / 60 - 200 BPM Rotary Type)

US Canadian Clear Watek LLC is one of the members of the Canadian Clear Group of Companies. Canadian Clear incorporated the state of art technology in design engineering of the systems being manufactured. CC1000 fully automatic bottling machine specially designed by US Canadian Clear Watek LLC., For mineral water / carbonated beverages. The entire process has provisions in the machine for rinsing, filling capping and sealing automatically. The entire process is fully mechanical with variable speed drive and gravity / counter pressure filling system. Inc. The whole equipment is sleek and is capable of bottling various sizes of bottles ranging from 500 ml to 2 ltrs. The mineral water bottles are fed into the rotary rinser, filler, capper by means of an input feed conveyor. A star wheel then transfers the bottle to the neck holding robot of the rinsing station. The rinsing robot indexes the bottle 1800 and activates the rinsing valve. Bottles after being rinsed are automatically transferred by a star wheel to the filling station. In the filling station the bottles are picked up by the neck and are allocated individual filling valves. The state of art filling valve is so precise and accurate it gives even filling in bottles. The filled bottles are then transferred to the capping station via a star wheel. The bottles automatically move for the capping stage where the caps release from the vibrator on to the bottles. The caps are sealed automatically using special capping heads. The CC - 1000 / 60 - 200 Rotary is an unique bottling machine with in build High - Tech features. 'No bottle no wash, no bottle no fill and no bottle no cap' are the standard features of CC - 1000 / 60 - 200 Rotary. The entire system is enclosed in a stainless steel / glass outer casing. After the capping stage the bottles are automatically ejected out to the out feed conveyor.

**Optional Features :** Shrink Labeller is provided on the output conveyor.  
Ozone Jets to disinfect caps. Cap Elevator cum Sorter.

MODEL	CAPACITY	LIQUID
CC 1000 - 60 SS	60 Bottles / Minute	Water / Non- Carbonated Liquids / Juices
CC 1000 - 60 SSC	30-60 Bottles / Minute	Carbonated Liquids and Beverages
CC 1000 - 100 SS	100 Bottles / Minute	Water / Non- Carbonated Liquids / Juices
CC 1000 - 100 SC	100 Bottles / Minute	Carbonated Liquids and Beverages
CC 1000 - 200 SS	200 Bottles / Minute	Water / Non- Carbonated Liquids / Juices
CC 1000 - 200 SC	200 Bottles / Minute	Carbonated Liquids and Beverages

Washing Heads      12 Nos  
Filling Heads        15 Nos  
Capping Head        06 Nos.

Main Drive            2.0 HP  
Feed Conveyor slat   0.5 HP ↔ Air 3 HP  
Discharge Conveyor 0.5 HP  
Shrink Tunnel        6.5 HP  

---

9.5 HP

\*All speeds based on 500ml PET Bottles.
